Details

The French Bartender figure sculpture captures the essence of a French bartender adorned with a dapper mustache and a classic beret. Wonderful and unique memphis-style sculptural wire wine rack shaped to look like a French waiter in the style of John Risley. Wire platter has glass plate, and hanging glassware racks below.

Crafted from intertwined black metal tubes, the sculpture is not just a piece of art, but a practical addition to your home. The tray held aloft by the bartender offers a stylish solution for organizing wine glasses. At the same time, the vertical ranks of his legs provide a storage solution for 14 wine bottles, adding both whimsy and functionality to the piece.

This fusion of ingenuity and elegance transforms the Bartender into more than a mere sculpture. It stands as a symbol of joie de vivre, reminding us to savor life's simple pleasures and appreciate beauty.
