Details

This console, inspired by the designs of Milo Baughman, features a sleek aesthetic that blends modern materials and classic style. The console's top is crafted from treated glass opaline, and the bottom shelves are made of clear glass.

On the left side, a black stained drawer with a polished chrome knob adds a touch of contrast. Inside the drawer, a plate bears the names of the makers, Mitchell Gold and Bob Williams.

Mitchell Gold + Bob Williams, a renowned American furniture company, was founded in 1989 and became known for its high-quality, stylish pieces. Despite its success, the company announced its closure in 2023, marking the end of nearly 35 years of innovation and craftsmanship. This console serves as a lasting tribute to their commitment to design excellence, combining modern elegance with practical design elements.
